Biohort Product Variety

Your Lasting Satisfaction – Our Family Promise

Dear Customer!

Biohort products are made in Austria and stand for quality, durability and design. Our 20-year manufacturer's warranty reinforces this promise of quality.

As an Austrian manufacturer operating to the highest industrial standards, we rely on highly skilled professionals and state-of-the-art automated production processes. This is how products of the highest technical standard are created. We use only high-quality materials sourced from rigorously vetted suppliers. Our galvanized steel sheet comes from renowned steel mills in Austria and Germany – the same trusted by leading premium automotive manufacturers.

Our innovative strength is reflected not only in the continuous development of our products, but also in outstanding new creations: The Biohort Pergola, launched in 2025, was developed entirely in-house – from the first sketch to full-scale production – and was honoured with the internationally renowned Red Dot Award for outstanding design.

This is what we stand for – with the responsibility and passion of a family-run business.

Thank you for making Biohort a part of your home.

Dr. Josef Priglinger
Company Founder

The Biohort Full Service Package.

All-In-One Solution

We guarantee our customers long-lasting satisfaction with our high-quality, durable products. In addition, we also offer you a complete service package. Our customer service team always handles your concerns personally and as quickly as possible. Thanks to our trained assembly partners, we can also guarantee the convenience of professional installation. The SmartBase and SmartBase^{PLUS} foundation solutions are available for all sheds and can be installed significantly faster and cleaner than costly concrete foundations. Together with our online tools, such as the product configurator, Biohort offers the most comprehensive service on the market!

Free Delivery*

Dispatched within 2 to 4 days! We will deliver your order free of charge directly to your home address (delivery free kerbside). The given address must be accessible for a 38-t lorry (3 m minimum width of access).

*applies to stock items only; excludes CasaNova®, CasaVita®, and oversized products.

Assembly Service

Biohort will be delighted to help you find an assembly partner who will assemble your purchase professionally. You can find more information on installation and the recommended prices at:

www.biohort.com/assembly-service

Assembly Videos

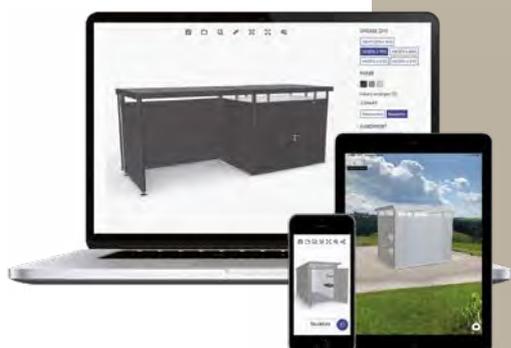

To help with the assembly, we have created short assembly videos for many of our products. You can find them on our YouTube channel:

www.youtube.com/biohort

Foundation Solutions

The foundation solutions SmartBase and SmartBase-^{PLUS} form a stable foundation for Biohort garden sheds, the equipment locker and MiniGarage. The foundations are storm-proof and quick to install. More information on pages 30–33 and at:

www.biohort.com/foundation

Product Configurator

The Biohort 3D-Configurator visualises within a few clicks each product including the individually desired accessories and even calculates the final price. Not enough: the handy augmented reality function allows you to virtually position the product directly in your garden via smartphone or tablet.

www.biohort.com/configurator

This means Biohort Quality, Made in Austria.

Durability

- 20 year guarantee, see page 09 for details.
- Hot-dipped galvanized and polyamide coated steel sheet
- High-quality fasteners and hinges (e.g. made of stainless steel)
- Lifetime maintenance free
- Rainwater proof

Stability

- Double the plate thickness compared to low-cost providers
- Optimal structural design
- Storm proof up to 150 km/h, wind force 12*
- High snow load of up to 150 kg/m²*

Functionality

- Extensive range of standard features
- Large selection of accessories
- Wide range of applications

Security

- Locking mechanism with a cylinder lock
- Non-combustible metal construction

*Only applies to garden sheds when professionally assembled and anchored.

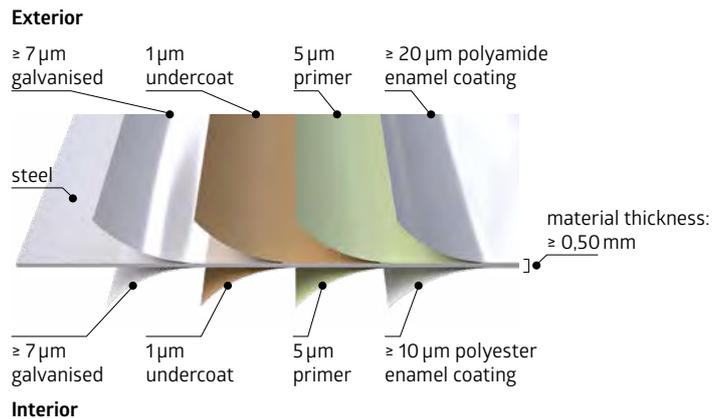

A company, that stands for exceptional quality.

Thirty years ago, the Austrian family-owned company began with a clear vision: Manufacturing high-quality outdoor products made of metal – for functional and stylish outdoor spaces and for people who value quality. Backed by three decades of experience, technical expertise, and a spirit of innovation, this has led to the creation of a diverse product portfolio. Today, we offer premium products in the areas of storage, gardening, and outdoor living – and are among Europe's leading providers. Your expectations drive us. Responsibility, reliability and the pursuit of quality shape our daily actions.

**"Quality is created when technical expertise meets responsibility and passion."
– Julian Koller**

Advantages of Metal

- No painting
- The high-quality steel used by Biohort does not deform and remains in shape for decades.
- The hot-dip galvanised, polyamide enamel coated steel used by Biohort is “fireproof” in accordance with EN 13501-1 (Class A1).
- German premium car manufacturers rely on the same steel sheet as we do.

Did you know?

Stability Test

A scientifically supervised wind tunnel test at the Vienna University of Technology certifies that Biohort garden sheds, when properly assembled and anchored, can withstand wind loads of up to **150 km/h (wind force 12)**. Optimally designed profiles and the use of stainless steel screws further contribute to the durability of our products.

Material

Biohort uses **hot-dip galvanized steel sheet** with an additional **polyamide-baked coating** for its products. The use of top-quality materials ensures that Biohort can confidently offer a **20 year guarantee** against corrosion. The prerequisite for this is that no aggressive substances (e.g. chlorine, salt, etc.) are stored and that there are no aggressive environmental conditions such as proximity to the sea or exposure to road salt.

Biohort Colours

The colour coatings we use are produced exclusively for Biohort and do not match the **RAL numbers**. Since many Biohort dealers have show models or original colour samples, we recommend visiting them before your purchase. You can also request free material samples (colour sample sheets) on our website at www.biohort.com/request-material-samples

The General Terms and Conditions (GTC) of Biohort GmbH apply. You can find these at: www.biohort.com/gt&c
 Our terms of guarantee are available here: www.biohort.com/terms-of-guarantee

Europa size 3, metallic quartz grey
(with aluminium floor frame and aluminium floor panels as accessories)

Europa

Quality at a Reasonable Price

Everything Well Organised with the Biohort Classic

The Europa garden shed has been tried and tested for decades and is still very popular. Its high stability and durable materials make it an excellent choice. The functional features simplifies your gardening work and establishes order in your garden. An extensive range of standard features and sophisticated accessories fulfil your needs.

1 Europa size 4, metallic quartz grey with side canopy
(see accessories p. 26)

Advantages

Security:

- Dual locking mechanism with T-handle cylinder lock
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150 kg/m²

Functionality:

- Integrated gutter with a connection for a 1" hose

Standard Features:

- Double door
- Integrated organiser system on the inside of the doors (incl. 6 hooks)
- Tool hanger (4 pcs.)
- Shelves and support rails (2 pcs. each)
- Two additional mounting brackets for wall mounting (by size 2A and size 4A)
- Door hooks to secure the opened door panels

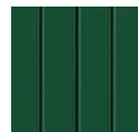

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Dark Green

Optional Accessories

can be found on pages 24–33.

Sizes (in cm, exterior dimensions incl. roof overhang)

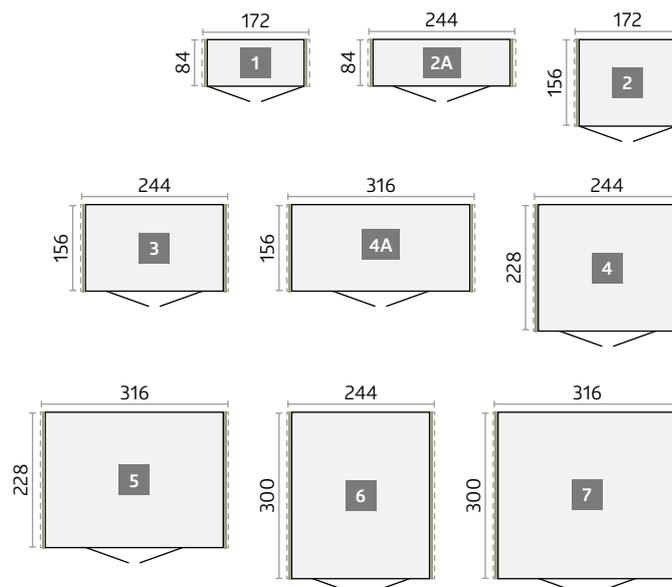

Door opening:

Double door: 135 x 170 cm (W x H) – from size 2A an off-centre installation of the double door possible, for sizes 2, 3, 4, 5, 6 and 7 side installation of the double door possible.

The dashed lines indicate the roof overhang.

Green bars mark the rain gutters and highlight where an optional side or front canopy can be added.

See page 26 for details.

Technical data and detailed information can be found on pages 106–112.

AvantGarde® size A2, metallic silver
(with smooth double door, window unit, aluminium floor frame and aluminium floor panels as accessories)

AvantGarde®

For Modern Architecture

Top Quality Pent Garden Shed

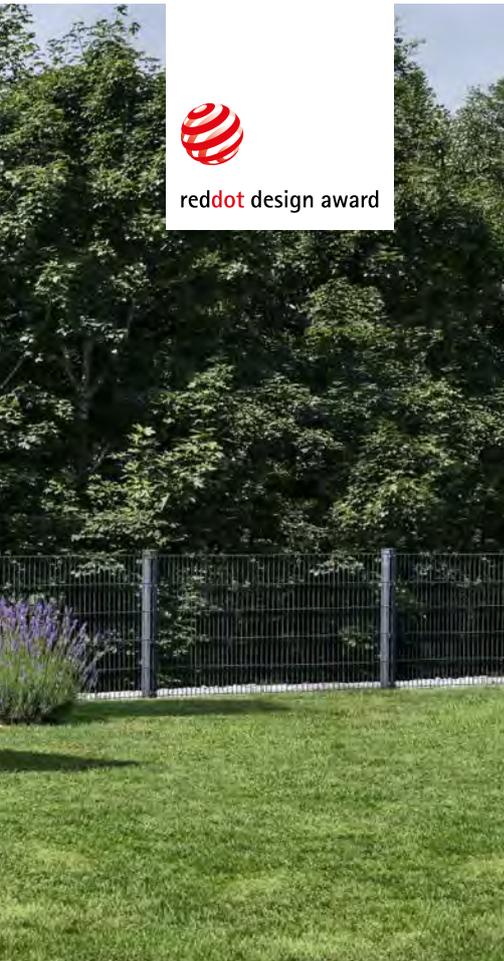

The AvantGarde® metal shed lives up to its name in every respect. It impresses with an attractive design that meets the requirements of modern architecture. With its numerous practical advantages for everyday use, it guarantees lasting satisfaction. It is maintenance-free for life and therefore saves money and valuable spare time.

1 AvantGarde® size A3, metallic dark grey with side canopy including back and side wall
(see accessories p. 26)

reddot design award

Advantages

Security:

- Triple locking mechanism with stainless steel door handle / dual locking mechanism in the ECO variant
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150 kg/m²

Functionality:

- Integrated gutter with a connection for a 1 1/4" hose
- Acrylic glass skylight with roof overhang

Standard Features*:

- Tool holder (2 pcs.)
- Tool hanger (4 pcs.)
- Shelves and support rails (2 pcs. each)
- Gas spring assisted door

*not included in the ECO variant

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Optional Accessories

can be found on pages 24–33.

Size A5 in the ECO variant, metallic quartz grey with corrugated standard door

AvantGarde®ECO

For particularly price-conscious buyers, we recommend the ECO variant with corrugated door and T-handle cylinder lock. With integrated organiser system on the inside of the door and door hooks instead of the gas spring. **The ECO variant is supplied without the basic equipment, which makes it so attractive in price.** Door opening and sizes, just like the AvantGarde®. Also available with corrugated double door.

Sizes AvantGarde® and AvantGarde®ECO

(in cm, exterior dimensions incl. roof overhang)

Door opening:

Standard door (right door hinge):
76 x 182 cm (W x H)

Double door A1–A4: 139 x 182 cm (W x H)

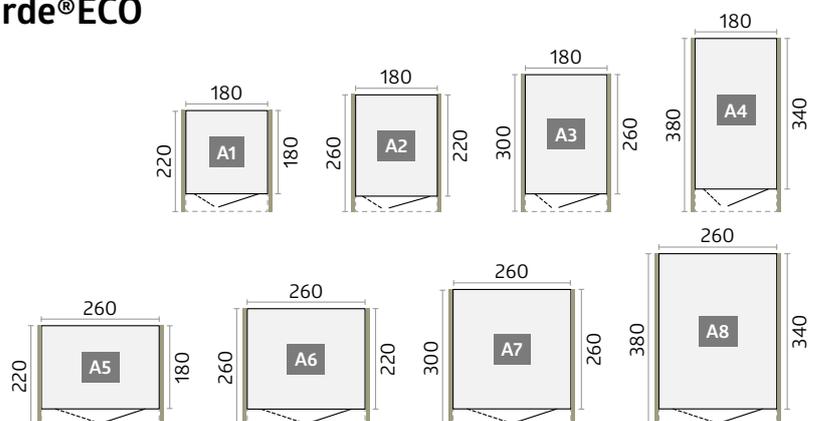

Double door A5–A8: 155 x 182 cm (W x H)

Further door installation variants by AvantGarde®:

Standard door with left-hand hinge.

For details see p. 112.

The dashed lines indicate the roof overhang. The green bars indicate the possible attachment side for an optional side or front canopy.
For details see p. 26.

Technical data and detailed information can be found on pages 106–112.

HighLine® size H2, metallic dark grey (with aluminium floor frame, aluminium floor panels, door baskets, FloraBoard and double door as accessories)

HighLine®

Flat Roof Aesthetics for Your Storage Space

The HighLine® Garden Shed Fulfils the Highest Standards

The HighLine® impresses with its elegant design and modern flat roof. The integrated all-round skylight sets strong accents and the timeless design fits into any setting. The HighLine® garden shed stands for durability and quality!

1 HighLine® size H3, metallic silver with side canopy:

Side and back walls as privacy screens are available separately (see accessories, p. 26).

Advantages

Security:

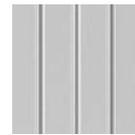

- Triple locking mechanism with stainless steel door handle
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150 kg/m²

Functionality:

- Integrated gutter with a connection for a 1 1/4" hose
- Gutter with integrated leaf traps fitted to both sides
- Gas spring assisted door

Standard Features:

- Continuous acrylic skylight
- Tool holder (2 pcs.)
- Tool hanger (4 pcs.)
- Shelves and support rails (2 pcs. each)

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

(Roof surface is always in metallic quartz grey)

Optional Accessories

can be found on pages 24–33.

Sizes (in cm, exterior dimensions incl. roof overhang)

Door opening:

Standard door (right door hinge):
76 x 182 cm (W x H)

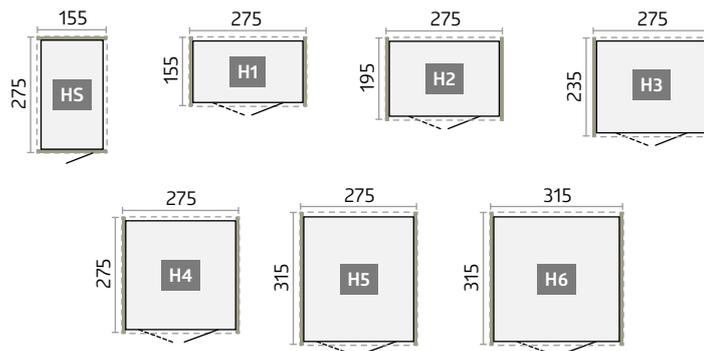

Double door: 155 x 182 cm (W x H)

Further door installation variants: Standard door with left-hand hinge or optional double door. For details see p. 112.

The dashed lines indicate the roof overhang.

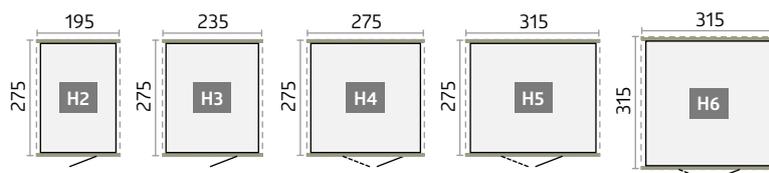

The green bars indicate the rain gutters or show the possible attachment side (from size H2 onwards) for an optional side or front canopy.

See page 26 for details.

Tip: You can rotate the HighLine® from size H2 onwards to suit your own preferences, and the standard door can be installed in any side wall.

From size H4 onwards, the double door can also be installed on the side.

Technical data and detailed information can be found on pages 106–112.

Panorama® size P2, metallic dark grey
(with aluminium floor frame and aluminium floor panels as accessories)

Panorama®

Interior Illumination

The Beauty of Natural Light

The continuous skylight made of acrylic glass gives the Panorama garden shed a modern lightness, allowing this gable roof model to blend seamlessly into any garden setting. Proven Biohort quality in materials and workmanship, combined with customizable equipment options, makes the Panorama® model the perfect garden shed for those with high standards.

1 Panorama® P2, metallic quartz grey
The standard door can be fitted in any side wall from size P2 onwards.

Advantages

Security:

- Triple locking mechanism with stainless steel door handle
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150 kg/m²

Functionality:

- Integrated gutter with a connection for a 1 1/4" hose
- Gutter with integrated leaf traps fitted to both sides
- Gas spring assisted door

Standard Features:

- Continuous acrylic skylight
- Tool holder (2 pcs.)
- Tool hanger (4 pcs.)
- Shelves and support rails (2 pcs. each)

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

can be found on pages 24–33.

Sizes (in cm, exterior dimensions incl. roof overhang)

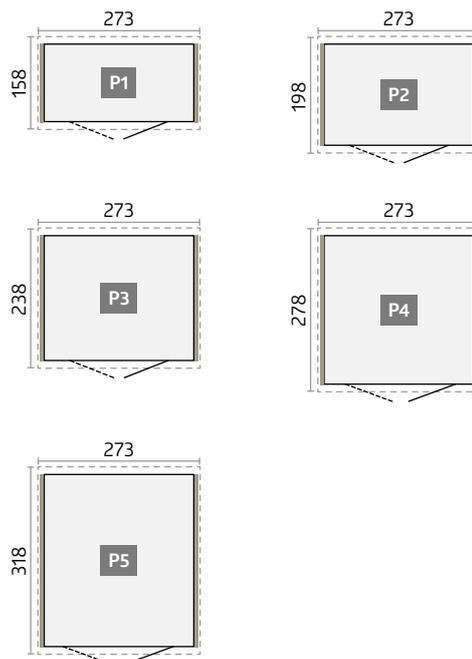

Door opening:

Standard door (right door hinge): 76 x 182 cm (W x H) – from size P2 onwards, the standard door can be installed in any side wall.

Double door: 155 x 182 cm (W x H) – from size P4 onwards, the double door can be installed in either side wall.

Further door installation variants: Standard door with left-hand hinge or optional double door. For details see p. 112.

The dashed lines indicate the roof overhang, and the green bars mark the rain gutters. See page 26 for details.

Technical data and detailed information can be found on pages 106–112.

Neo size 2B, metallic silver
(with aluminium floor frame, aluminium floor panels and double door as accessories)

Neo

Revolution in Design & Functionality

The Best From Decades of Experience – The Biohort Top Product

Smooth wall surfaces and the elegant acrylic glass panel in the door characterise the modern look. Additional glass panels can be flexibly installed thanks to a specially developed panel system. In addition to the wooden ceiling panel for regulating humidity, the optional white interior wall cladding and insulation contribute to a pleasant atmosphere.

1

2

- 1 Glass panel:**
Thanks to a flexible panel system, glass panels can also be added.
- 2 Size 2B, metallic dark grey with side canopy:**
Side and back walls as privacy screens are available separately (see accessories, p. 26).
Tip: The glass panel and FloraBoard are also available for the side canopy.

Advantages

Security:

- Triple locking mechanism with stainless steel door handle
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150 kg/m²
- Screw and rivet free surfaces

Functionality:

- Gas spring assisted door
- Optional interior panelling and insulation
- Integrated roof gutter

Standard Features:

- Tinted glass in the standard door
- Plywood ceiling with an EPDM roofing membrane
- Rainwater downpipe (2 pcs.)
- Tool holder (2 pcs.)
- Tool hanger (2 pcs.)
- Shelves (2 pcs.)

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Optional Accessories

can be found on pages 24–33.

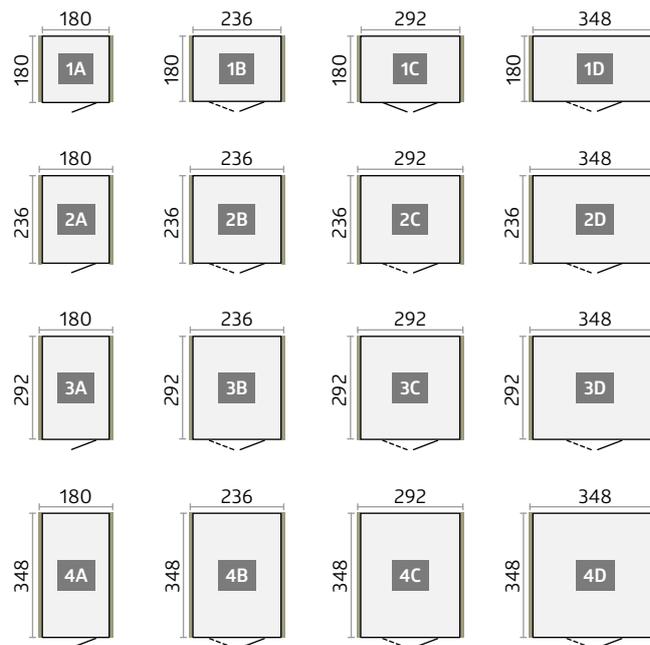

Sizes (in cm, exterior dimensions incl. roof overhang)

Door opening:

Standard door (right door hinge): 83 x 200 cm (W x H) – the standard door can be installed on the sides of the shed.

Double door: 167 x 200 cm (W x H) – the double door can be installed on the sides of the shed from 236 cm.

The green bars indicate the possible attachment side (from size 2A onwards) for an optional side canopy. For details see p. 26.

Technical data and detailed information can be found on pages 106–112.

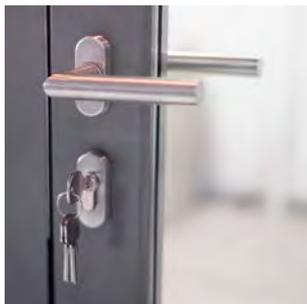

CasaNova® 3 x 4, metallic dark grey (with aluminium floor frame, aluminium floor panels, external lighting and two glass elements as accessories)

CasaNova®

Design, Customised to Your Requirements

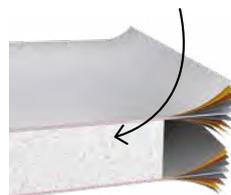

The High End Metal Building with Insulated Side Walls

Whether as a garden shed, workshop or hobby room – the CasaNova® insulated design outbuilding demonstrates unique flexibility with a wide range of configuration options and adapts exactly to your requirements. Whether you're looking for functional storage space or want to create a utility area outdoors – the CasaNova® designer garden shed makes your wishes come true with exceptional quality.

Insulated side walls / door panel

Sandwich element with 40 mm polystyrene core (EPS W20)

Advantages

- Sandwich element with 40 mm core made of polystyrene (EPS W20)
- Screw and rivet free surfaces

Security:

- Locking mechanism with stainless steel door handle
- Roof or snow load of up to 215kg/m² (minus any additional roof weight such as greenery)

Functionality:

- Easy to heat thanks to thermal insulation; U-value of side walls: 0.76 W/(m²K)
- Door hinge position on the left or right available
- Large selection of accessories
- Ventilation via acrylic glass panel which can be opened
- Gas spring assisted door

✔ Standard Features

★ Optional Accessories

		Europa	AvantGarde®	AvantGarde®ECO	HighLine®	Panorama®	Neo**	Equipment Locker
17	<p>FloraBoard Two rails of the same colour as the shed are attached to the outer wall and the flower boxes can be hung on these at a suitable height. Plastic inserts for easier planting are included in the standard delivery scope. Tip: For the Neo garden shed, the FloraBoard is also available for the side canopy's side or back walls.</p>		★	★	★	★	★	
18	<p>Gas Spring Set Provides a comfortable door opening. Scope of delivery: 2 pieces.</p>	★	✔	★	✔	✔	✔	★
19	<p>Window Unit The side wall panel with its metal-frame hinged window (plexiglass) brings even more daylight into the garden shed and provides a clear view of the garden (window opening: 50 x 60 cm).</p>	★	★	★	★	★		
20	<p>Glass Panel The tinted glass panel is enclosed in a metal frame (Dimensions: 28 x 207 cm) and can be flexibly installed in any side wall, but not next to a door, a corner element or another glass panel. Tip: The glass panel is also available for the side canopy with side or back wall.</p>						★	
21	<p>PV Mounting Preparation for Side Wall Mounting option for PV modules – without drilling and therefore without loss of warranty. The delivery includes vertical rails that allow PV modules and balcony power plants to be mounted easily and securely using standard fastening materials. The shed thus becomes a green energy source.</p>	★	★	★	★	★	★	
22	<p>Double Door Makes entering and leaving the shed with large tools and equipment easier. The double door panel is equipped on the inside with a rotary lock and with a gas spring (exception: AvantGarde®ECO garden shed, Europa and equipment locker). Neo Garden Shed: standard with glass panel in the right-hand door panel. Exception equipment locker size 90: no double door possible. An additional double door is available as a further door installation variant. For details see p. 112. (Exception: AvantGarde® garden shed)</p>	✔	★	★	★	★	★	✔
23	<p>Additional Door Included in the delivery scope are a stainless steel door handle with standard cylinder (3-way locking mechanism), a gas spring, hinges, two tool holders and the appropriate door frame panels. The door can be hinged* on the right and on request also on the left. For details see p. 112. Neo garden shed: standard with tinted glass panel. AvantGarde®ECO garden shed: Also available in the cost-effective ECO version: door with corrugated surface, T-handle cylinder lock (dual locking), door hook, hinges, and an organization system on the inside of the door. Europa garden shed: double door with corrugated surface, T-handle cylinder lock (dual locking mechanism), door hooks, hinges and organiser system on the inside of the door.</p>	★	★	★	★	★	★	
24	<p>Side Canopy The side canopy can be attached to one or both sides of the Neo garden shed (from size 2A). The width of the side canopy is 300 cm. The aluminium supports are equipped with height-adjustable feet. Two rainwater downpipes are included. The side canopy is fixed to the HighLine® shed (from size H2) on the side with the rain gutter (optionally on one or both sides). It is available in two different sizes. The width of the side canopy size S is 150 cm and for size L 282 cm. The aluminium supports are equipped with height-adjustable feet. The rainwater downpipe is included. The side canopy for the Europa garden shed can be attached on the left, right or both sides. The set includes the supports, a short rainwater downpipe and the fixation material (not available for size 1 and size 2A). The side canopy for the AvantGarde® and AvantGarde®ECO garden sheds can be optionally mounted on the left, right, or both sides. The aluminium supports are equipped with height-adjustable feet. The delivery for sizes A4/A8 includes three support posts. Two rainwater downpipes are included.</p>	★	★	★	★		★	
25	<p>Side and Back Wall for Side Canopy Depending on preference, a back wall and/or a side wall can be added to the side canopy of the HighLine® garden shed (from size H2), Neo (from size 2A), and AvantGarde® / AvantGarde®ECO. They are available in the same colours as the shed.</p>		★	★	★		★	

*Exception Neo garden shed: Here the door hinge is only possible on the right.

biohort.com/bikelift

biohort BikeLift[®] ↑

The BikeLift[®] Advantages

-  Lift function for bikes weighing up to 30 kg
-  Suitable for tyre widths of up to 77 mm/ 3 inch

The Biohort BikeLift[®] can be mounted on the wall in the cellar, in the garage or carport in just a few easy steps. It is even easier to install in a Biohort shed – the BikeLift[®] is simply hooked in there with an additional module as an optional accessory.

The innovative lift is available in two variants: standard or swivel mounter.

Comfortable lift function for every bike

From e-mountain bike to racing bike – the Biohort BikeLift[®] pulls any bike vertically up the wall as if by itself. This saves space and is effortless.

Hook in

Simply hook the front wheel into the BikeLift[®]. The hook fits all tyre widths up to 77 mm.

Push

A short downward push on the handlebars is enough to activate the automatic lift function.

Lift

Thanks to powerful spring tension, the BikeLift[®] lifts any bicycle (up to 30 kg) effortlessly – completely without electricity!

Save space

Securely fixed and lockable, the bike hangs vertically on the wall to save space.

Technical data and detailed information can be found at www.biohort.com/bikelift.

Conventional Foundation Solutions*

Concrete Foundation

A reinforced concrete foundation slab on a gravel base is an optimal, but also expensive foundation. With this type of foundation, you must also make sure that no water can penetrate into the shed at ground level. The offset foundation with a circumferential step of 2 cm x 7 cm is the ideal design for this (aluminium floor frame and aluminium floor panels cannot be used). As an alternative to the rebated concrete foundation slab surface, a continuous flat concrete slab can also be poured.

The available **aluminium floor frame** accessory makes it easier to level out any unevenness in the foundation and as well as fitting a sealing joint. The aluminium floor frame also allows the use of the **aluminium floor panels** which can be underlaid with XPS hard foam boards. (The XPS hard foam boards not included in the delivery).

Point Foundation

Another option for erecting garden sheds on uneven ground is a point foundation in conjunction with an **aluminium floor frame**.

Paving Slabs

Paving slabs laid in a gravel bed offer a good and cost-effective solution. We strongly recommend the use of the **aluminium floor frame**.

Floor Frame

With the **aluminium floor frame** you can also set up and anchor the shed on a gravel bed (ground anchors available as accessory). The **aluminium floor panels** (accessory) serve as a functional floor and are underlaid with XPS hard foam boards (XPS hard foam boards not included in the delivery).

*non-binding recommendation for all garden sheds, the equipment locker, the Pergola and the MiniGarage.

Biohort SmartBase Solutions

Detailed information on the SmartBase and SmartBase^{PLUS} can be found on pages 32-33. —————>

★ Optional Accessories

		Europa	HighLine®	Panorama®	AvantGarde®	AvantGarde®ECO	Neo**	Equipment Locker
	Aluminium Floor Frame It gives the shed the necessary stability even without a concrete foundation.							
31	If the floor frame is laid directly on a gravel base (approx. 10 cm gravel, without foundation or slabs), ground anchors are required for securing to the ground. These are available as accessories – please refer to the technical data for the number of anchors. Storm resistance must be ensured by the customer for this foundation solution.	★	★	★	★	★	★	★
	Aluminium Floor Panels Depending on the size of the shed, the high-quality aluminium chequer plate floor consists of several segments including connecting profiles. To ensure the optimal fitting, the aluminium floor frame is necessary (see above). We recommend using a filler layer of loose material or XPS rigid foam panels with a thickness of approximately 2–3 cm (not included in the delivery).							
32		★	★	★	★	★	★	★
	SmartBase The perfect base for solid ground surfaces (concrete or paved areas). Light ground irregularities of up to 4 cm can be compensated. See page 32 for details.							
33		★	★	★	★	★	★	★
	SmartBase^{PLUS} Optimum solution for slopes and lawns, patented system with ground screws to compensate for slopes of up to 15 cm. See page 33 for details.							
34		★	★	★	★	★	★	★

32 Aluminium Floor Panels

34 SmartBase^{PLUS}
See details on next page.

Technical data and detailed information can be found on pages 106–113.

Rainwater barrier

Height adjustment with adjustable feet

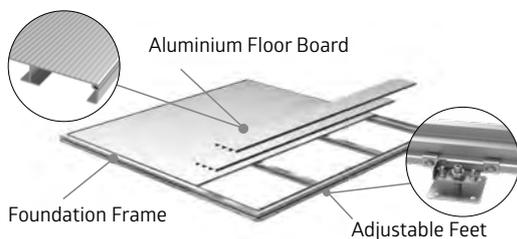

Adjustable feet

SmartBase

Perfect Base for Hard Surfaces

The Biohort SmartBase Foundation is the ideal foundation for concrete or paved areas. It consists of high-quality aluminium boards, a special foundation frame and height-adjustable feet. So light ground irregularities of up to 4 cm can be compensated.

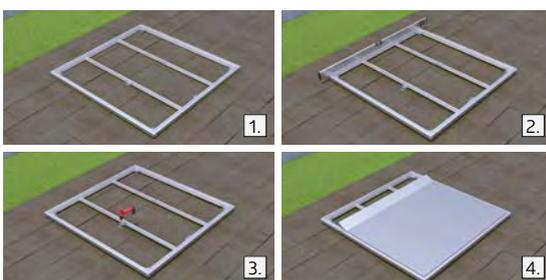

Advantages

- Compensation of unevenness through adjustable feet
- Easy to remove if necessary
- Precisely fitted to all Biohort garden sheds, the Equipment Lockers and the MiniGarage
- Storm proof
- Load bearing capacity max. 200 kg/m²

Standard Features:

- Aluminium floor boards with grooved surface
- Specially designed foundation frame
- Galvanised adjustable feet
- Adjustable feet with height adjustment
- Integrated water barrier to protect against water ingress

Floor frame and floor panels are no longer necessary!

Time of assembly: 1–2 hours with two people (depending on craftsmanship and product). **Tools required:** spirit level, drill, open ended spanner SW13 and SW24.

1. Frame assembly
2. Connection of adjustable feet and frame alignment
3. Fixing the adjustable feet to the subsurface
4. Fixing of aluminium floor boards

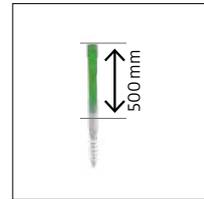

Technical data and detailed information can be found on pages 106–113.

Rainwater barrier

Height adjustment with ground screws

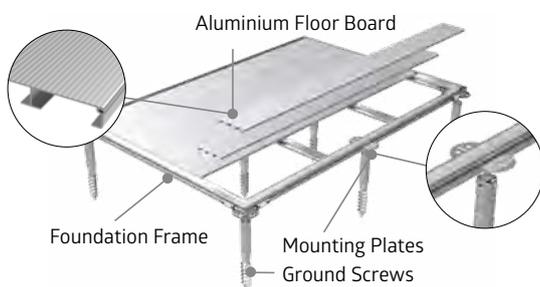

Optional: Extension kit for ground screws

SmartBase^{PLUS}

Optimal Base for Slopes and Lawns

Unlike the SmartBase foundation, the patented SmartBase^{PLUS} system includes ground screws instead of adjustable feet. These are screwed directly into the ground and can compensate for slopes of up to 15 cm (extensions for greater height differences available upon request). The ground should be compact and free of large stones.

Advantages

- Little excavation
- Gravel base is not necessary
- Compensation of unevenness through ground screws
- Easy to remove if necessary
- Precisely fitted to all Biohort garden sheds, the equipment lockers and the MiniGarage
- Storm proof
- Load bearing capacity max. 200 kg/m²

Standard Features:

- Aluminium floor boards with grooved surface
- Specially designed foundation frame
- Galvanised ground screws
- Multi-adjustable mounting plates
- Including manual screw-in driver
- Integrated water barrier to protect against water ingress

Floor frame and floor panels are no longer necessary!

Time of assembly: 2-4 hours with two people (depending on craftsmanship and product). **Tools required:** hammer drill, drill bit Ø 40 x 570 mm, spirit level, drill, open-end spanner SW13 and SW24, shovel.

1. Site preparation and ground screw insertion
2. Attachment and levelling of mounting plates
3. Positioning and attachment of frame
4. Fixing of aluminium floor boards

Technical data and detailed information can be found on pages 106-113.

Patio Locker Julia® size M, metallic dark grey
(with shelf as accessory)

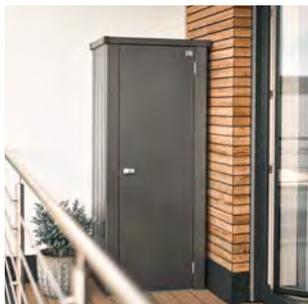

NEW

Julia® Patio Locker

Efficient Storage Space for Balcony Utensils

Compact Patio Locker for Small Outdoor Spaces

Where there's a Romeo, there's also a Julia® – our patio lockers evolve with the demands of modern outdoor spaces. With four new sizes and its single door, the Julia® patio locker adapts to different space requirements and creates structured organisation on balconies and patios. Like Romeo®, Julia® also impresses with a dual locking system, gas springs for soft closing and shelves as standard.

Advantages

Security:

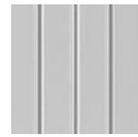

- Dual locking mechanism with T-handle cylinder lock
- Rainwater proof

Functionality:

- Comfortable door opening with gas spring
- Invisible, integrated ventilation

Standard Features

- One shelf
- Organiser system fitted inside the door (incl. 6 hooks)

Size M^{HIGH}, size L^{HIGH}: 51 x 171 cm (W x H), (right door hinge)

Optional Accessories

Full-sized Shelf (1 piece)

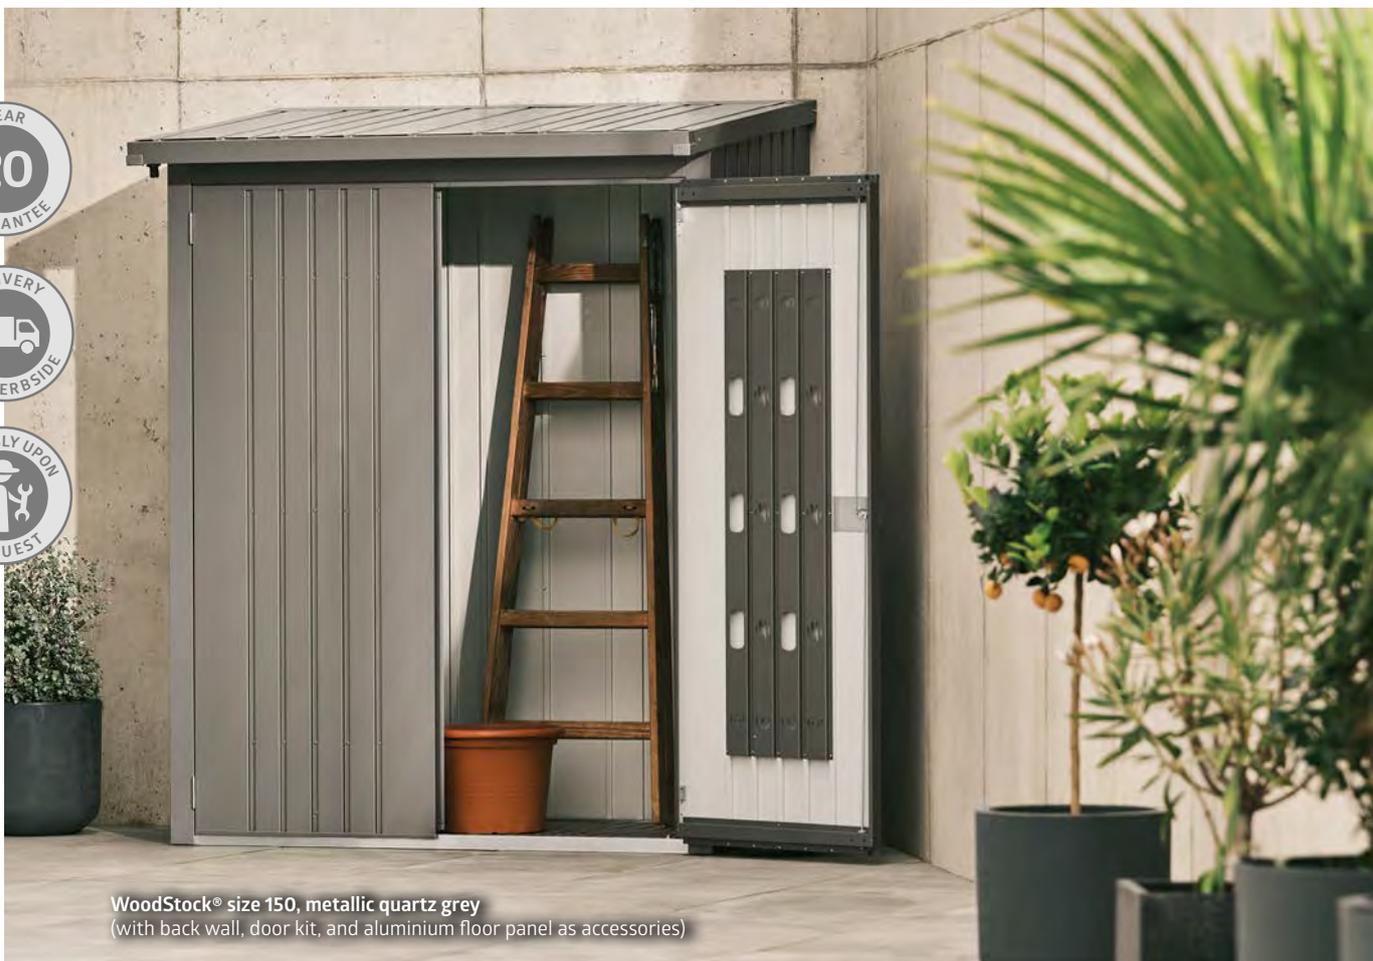

Galvanised shelf for full-surface storage.

Shelf Set (2 pcs.)

Galvanised steel shelves.

Technical data and detailed information can be found on page 114.

WoodStock® size 150, metallic quartz grey
(with back wall, door kit, and aluminium floor panel as accessories)

WoodStock®

Protection for Wood, Tools and More

Shelter for Dry and Secure Outdoor Storage

The WoodStock is a versatile storage solution for outdoor areas. It is suitable for dry storage of firewood – even in two rows. With an optional back wall and double door, it can also be used as a compact equipment locker. The integrated rain gutter at the front ensures controlled water drainage.

Integrated gutter on the front side.

Advantages

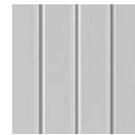

- Stability because of massive aluminium frame
- Wide range of accessories available

Security:

- Integrated gutter on the front side
- Universally applicable for garden tools
- Storm proof up to 150 km/h, wind force 12

Functionality:

- Screws and anchors for fixation to the ground

Something Nobel in the Front Garden

The Unsightly Beautifully Stowed

Wheelie bins are not easy on the eye – unless they are hidden in noble industrial design. Additionally, the HighBoard allows for easy filling and emptying of the bins with its spacious doors and the additional lid opening. And the robust cylinder lock prevents foreign waste from being deposited.

Advantages

- Screw and rivet free surfaces

Security:

- Locking mechanism with turn knob cylinder lock
- Rainwater proof

Functionality:

- Comfortable lid opening with gas spring
- The elegant lid with its smooth look can also be opened easily when placed directly against a wall
- Invisible, integrated ventilation

Standard Features:

- Wheelie bin lid opener (3 pcs.)

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Sizes (in cm)

Door opening:

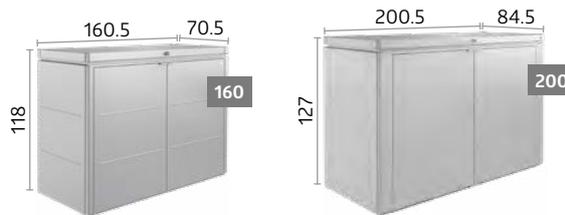

Size 160: 140 x 100 cm (W x H)

Size 200: 167 x 110 cm (W x H)

Storage capacity:

Size 160: 3 x 120 L wheelie bin

Size 200: 3 x 120 L wheelie bins or
3 x 240 L wheelie bins

Optional Accessories

Tool Holder

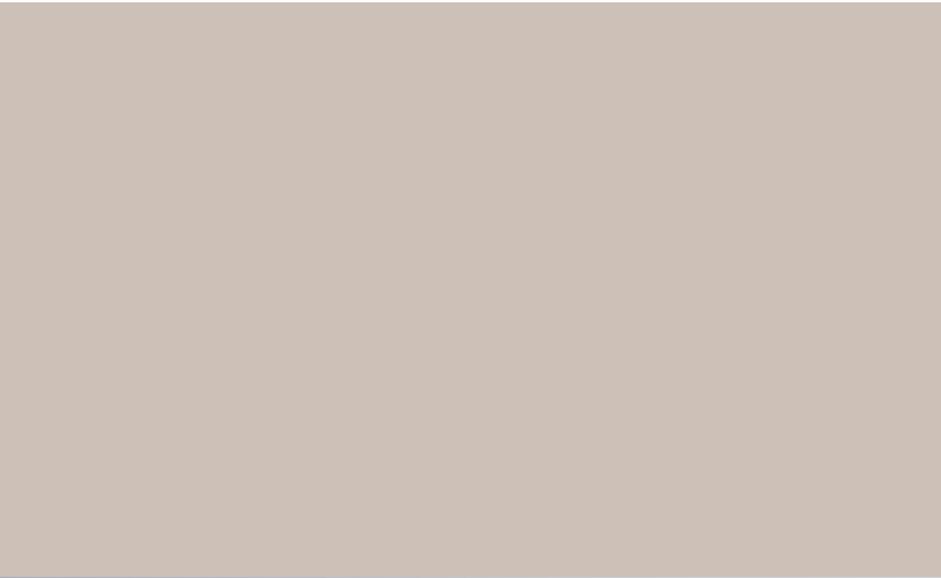

For mounting on the inside of the doors. Max. 2 tool holders per door panel possible.

Bin Bag Holder

The bin bag holder enables neat and discreet storage - ideal for collecting deposit bottles or cans. Up to three bin bags can be hung side by side in the HighBoard and securely fastened.

Technical data and detailed information can be found on page 115.

80 CasaNova®

82 Privacy Screen

Biohort

For more comfort,
for outdoors.

Pergola 4x3, metallic dark grey
(louvered side wall as accessory)

Pergola

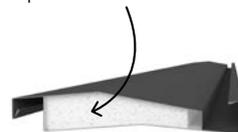

Shade & Open Space

For Unique Moments in Your Garden

High quality. Modern. Comfort in all weather thanks to innovative sandwich construction, which significantly reduces noise levels and heat emission from the roof. Expandable accessories such as LED lighting, sun screen or glass sliding wall provide added comfort and transform the pergola into a versatile outdoor retreat.

Louwer structure
Sandwich construction with Peripor core.

reddot design award

Advantages

Functionality:

- 130° adjustable louvres control the shading
- Rainwater drainage integrated in the uprights
- Significantly reduced noise generation
- Accessories can be easily retrofitted
- Less heat radiation thanks to the sophisticated design and sandwich construction of the louvres

Standard Features:

- Manually adjustable louvres
- Preparation for LED Lighting (channel with cover)

Information on the foundation at:
www.biohort.com/foundation

✔ Standard Features

★ Optional Accessories

		Pergola
01	Manually Adjustable Louvres	✔
	Electric Drive for Adjusting the Roof Louvres	
02	Plug-in low-voltage retrofit solution (no certified electrician required). Control set must be ordered separately. One control set (04) is required per pergola.	★
03	Preparation for LED Lighting (channel with cover)	✔
	Control Set EU / CH / UK (including remote control)	
04	Thanks to a control system developed specifically for Biohort, along with a remote control, power supply unit (max. 320 W), and extension cable, the electric drive, sun screens, and/or dimmable LED lighting can be conveniently retrofitted at any time.	★
	LED Lighting	
05	Four-sided continuous dimmable lighting (3000 K and 900 lm/m). Plug-in low-voltage retrofit solution (no certified electrician required). Control set must be ordered separately. One control set (04) is required per pergola.	★
	Motorised Sun Screen	
06	The control unit is prepared for up to three electric sun blinds and can also be retrofitted to existing systems. Control set must be ordered separately. One control set (04) is required per pergola.	★
	Manual Sun Screen	
07	Sun protection with ZIP function. With manual operation, installation on the side with the crank is not possible.	★
	Louvred Side Wall with End Trim	
08	Manually adjustable. With manual roof louver operation, installation is not possible on the side with the crank. The slatted side wall is available in various widths, allowing for flexible design options. The included end trim ensures a clean finish. If more than one slat side wall is used per pergola side, the product configurator must be used to check feasibility.	★
	Clear Glass Sliding Wall	
09	Durable, shatterproof glass elements made of 10 mm tempered safety glass. Convenient handling thanks to smooth-running roller bearings. Clean finish in a guide element attached to the upright. Note: An absolutely level foundation is essential for installation.	★
	Height-adjustable Base Plate	
10	To compensate for larger height differences (7–23 cm). All components required for height adjustment of a pergola upright are included in the delivery.	★

CasaNova® 3x4, metallic dark grey

CasaNova®

Design, Customised to Your Requirements

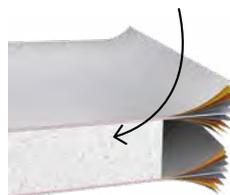

The High End Metal Building with Insulated Side Walls

Whether as a garden shed, workshop or hobby room – the CasaNova® insulated design outbuilding demonstrates unique flexibility with a wide range of configuration options and adapts exactly to your requirements. Whether you're looking for functional storage space or want to create a utility area outdoors – the CasaNova® designer garden shed makes your wishes come true with exceptional quality.

Insulated side walls / door panel

Sandwich element with 40 mm polystyrene core (EPS W20)

Advantages

- Sandwich element with 40 mm core made of polystyrene (EPS W20)
- Screw and rivet free surfaces

Security:

- Locking mechanism with stainless steel door handle
- Roof or snow load of up to 215kg/m² (minus any additional roof weight such as greenery)

Functionality:

- Easy to heat thanks to thermal insulation; U-value of side walls: 0.76 W/(m²K)
- Door hinge position on the left or right available
- Large selection of accessories
- Ventilation via acrylic glass panel which can be opened
- Gas spring assisted door

OUTDOOR LIVING

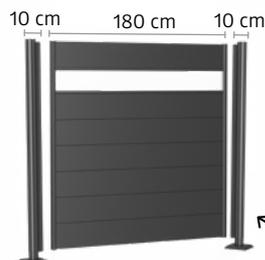

Privacy screen with acrylic glass panel, metallic dark grey

Privacy Screen

Decorative Eye-Catcher

A Piece of Privacy

Our privacy screen not only protects against curious eyes, it also offers protection from wind and direct sunlight. Thanks to the simple plug-in system, the elements can be individually expanded. Regardless of whether it is free-standing or directly on a house wall – the Biohort Privacy Screen is the perfect boundary for your garden oasis.

Privacy screen consisting of:

Wall panels and posts

The posts can be used as side end posts, corner posts, or connecting posts between two privacy panels.

Advantages

- Individually configurable
- Extremely durable
- Simple assembly
- Privacy, wind and sun screen
- Screw and rivet free surfaces

Security:

- High wind resistance due to well-thought-out ground anchoring

Functionality:

- Free-standing assembly or connection to house wall or similar possible
- Mounting accessories optionally available (see technical details)

Metallic Silver

Metallic Quartz Grey

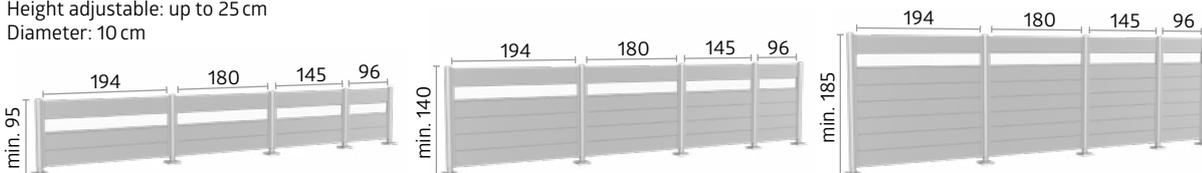

Metallic Dark Grey

Sizes (in cm)

Posts:

Height adjustable: up to 25 cm
Diameter: 10 cm

★ Optional Accessories

Components

Wall panels (with or without glass panels) and the appropriate posts are required for a privacy screen.

Privacy Screen Combinations

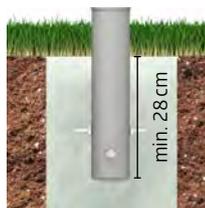

The privacy screen can be extended both in a straight line and in different angles.

All widths and heights are compatible with each other, making height gradations also possible.

Variant 1: Post for anchoring, height-adjustable up to 25 cm

The base plate is bolted to a frost-proof concrete foundation using threaded rod anchors (optional available). Assembly on terrace tiles or wood/WPC boards is not sufficient.

Variant 2: Post for setting in concrete, height-adjustable up to 25 cm

With this variant, the post is set directly into the concrete foundation.

Size of foundation points: minimum 50 x 50 cm (may vary depending on soil conditions)

Minimum depth: 80 cm (varies depending on the height of the privacy screen)

Technical data and detailed information can be found on page 120.

86 Florentina
Greenhouse

Biohort

For a rich harvest,
for outdoors.

Florentina Greenhouse size 2 x 1^{MAXI}, metallic dark grey
(with skirting, trellis and plant pot set as accessories)

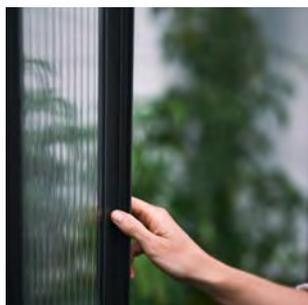

NEW

Florentina Greenhouse

Optimum Protection for Delicate Plants

Designer Greenhouse for Small Spaces

Compact greenhouse for tall-growing plants – ideal where space is limited. The well-designed combination of raised bed and custom-fit greenhouse top creates a protected microclimate, offering ideal conditions for healthy growth and an extended gardening season. Accessories such as trellis or irrigation system assist with plant care in a targeted and efficient way. Gardening can be functional – and look good. With its high-quality workmanship and modern design, the greenhouse becomes an architectural accent in the garden. Even in a small space, there is room for great things.

Advantages

- Unique design with a smooth surface and no visible screws or rivets
- Back-friendly gardening thanks to comfortable working height

Functionality:

- Protected microclimate through regulated air circulation and natural lighting conditions
- Can be retrofitted to existing Biohort raised beds
- Efficient use of space for diverse planting

Standard Features

- UV-resistant twin-wall panels
- Ventilation through two roof windows
- Integrated rodent protection made of fibreglass fabric

★ Optional Accessories

can be found on pages 94–95.

Belvedere®

Experiencing Design

The Eye-Catcher for Your Terrace

With a width of just 0.5 meters, the Belvedere® planting bed opens up space for creative ideas: as a vibrant room divider, it structures terraces and gardens and also fits perfectly on balconies. This gives you completely new design options and you can also save on potting soil with the standard intermediate floor.

Advantages

- Extremely durable
- Screw and rivet free surfaces

Security:

- Integrated rodent protection made of fibreglass fabric

Functionality:

- Skirting, trellis, privacy screen and planting insert optionally available
- Quickly assembled

Standard Features:

- Intermediate floor
- Opening for irrigation hose

✓ Standard Features

★ Optional Accessories

		Belvedere®	Raised bed	Florentina Greenhouse
01	Sliding Panel* Easy to empty thanks to sliding panel.	✓	✓	
02	Preparation for Irrigation Opening for watering hose on the narrow side (size: 17 x 17 mm).	✓	✓	✓
03	Irrigation System The Micro-Drip system ensures targeted and water-saving irrigation in greenhouses, raised beds and planting beds. The water is delivered directly to the roots of the plants via fine drippers.	★	★	★
04	Rodent Protection Integrated rodent protection made of fibreglass fabric. Is inserted before filling.	✓	✓	✓
05	Slug Guard* It is placed on top of the raised bed. Can be combined with a cold frame extension (05). Not available for L-sizes and raised bed 4 x 1.	★	★	
06	Intermediate Floor* The intermediate floor reduces the volume of the bed and the soil filling required, saving both money and valuable time. It is placed on the second corrugation during assembly.	✓	★	★
07	Cold Frame Extension* Efficient frost protection with 4 easily removable sliding panels. The cold frame extension is storm-proof and designed to direct rainwater into the raised bed. Cannot be combined with Trellis (09). Only suitable for size 2 x 1.		★	
08	Skirting* The skirting is mounted on the floor frame and placed on the lawn. The raised bed is then placed on the skirting and fastened (cannot be installed afterwards). Width: 6.7 cm. Not available for raised bed 4 x 1.	★	★	★
09	Planter Insert Plastic insert (size: 0.5 x 0.5 m) for easier planting, is placed on the intermediate floor. Holes for drainage can be drilled without any problems.	★		
10	Plant Pot Set Practical plant pots for side mounting in the greenhouse – perfect for herbs and seedlings. This creates additional planting space without taking up ground area. Available only for the Florentina greenhouse 2 x 0.5 and 2 x 1, and/or the Florentina greenhouse extension 2 x 0.5 and 2 x 1.	★	★	★
11	Trellis* The trellis is attached directly to the raised/planting bed. Cannot be combined with cold frame extension (05) or slug guard (06). Height: 91 cm	★	★	
12	Privacy Screen* with or without Tinted Glass Panel In conjunction with the planting bed, the privacy screen forms a decorative boundary and serves not only as a privacy but also as a windscreen. Cannot be combined with cold frame extension (05) or slug guard (06). Height: 91 cm. Note: In places exposed to the wind, the product with privacy screen is at high risk of tipping, so it is essential to ensure that it is adequately fixed to the ground using the fixing materials supplied.	★	★	
13	Florentina Greenhouse Extension The well-designed combination of raised bed and custom-fit greenhouse top creates a protected microclimate, offering ideal conditions for healthy growth and an extended gardening season.	★	★	
14	Weather Protection Plate The weather protection panel shields your harvest from heavy rain while allowing continuous ventilation for a stable internal climate. Available only for the Florentina greenhouse 2 x 0.5 and 2 x 1, and/or the Florentina greenhouse extension 2 x 0.5 and 2 x 1.	★	★	★
15	Automatic Ventilation The automatic ventilation opens both roof windows independently as soon as it gets too hot inside – controlled by a pressure spring. Available only for the Florentina greenhouse 2 x 0.5 and 2 x 1, and/or the Florentina greenhouse extension 2 x 0.5 and 2 x 1.	★	★	★
16	Florentina Trellis The trellis provides support for tall-growing plants, helping them stand upright securely. The cord can be flexibly hooked into the existing frame and adjusted to suit individual needs. Available only for the Florentina greenhouse 2 x 0.5 and 2 x 1, and/or the Florentina greenhouse extension 2 x 0.5 and 2 x 1.	★	★	★

Metallic Dark Grey

MonAmi®, metallic dark grey

MonAmi® Composter

As “my friend” in the garden, the MonAmi® composter combines functionality with stylish appearance: elegant, smooth surfaces on the outside, inside everything required for efficient composting. Two centrally placed ventilation pipes create a chimney effect and ensure a reliable circulation of air, meanwhile the circumferential gap underneath the cover ensures that heat is transferred out of the composter. Even composting can now look great!

Advantages

- Extremely durable
- Screw and rivet free surfaces

Functionality:

- Integrated rodent protection made of fibreglass fabric

Standard Features:

- Ventilation system ensures an optimal rotting process
- Sliding front wall panel makes it convenient and easy to empty
- Comfortable lid with gas spring

Ventilation Pipes

The integrated ventilation pipes provide an optimal supply of oxygen and circulation of air, which is essential for efficient composting.

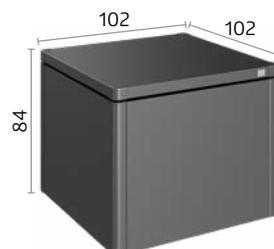

Sliding Panel

Sliding front wall panel makes it convenient and easy to empty.

Size (in cm)

Volume: 725 L

Technical data and detailed information can be found on page 123.

Made in Austria.

Biohort has always produced in Austria, and we are very proud of this fact. There are now three large sites in the western Mühlviertel region of Upper Austria. We have deliberately chosen this region with a highly skilled workforce. This enables us to produce in the best possible quality.

Made in Austria

Sustainability is Our Claim

At Biohort, sustainability is a core part of the company's strategy – ecological, economic, and social. Production is powered entirely by green electricity, with one third generated by the company's own photovoltaic systems. Additionally, waste heat from compressed air systems is used for heat recovery.

The company's own biomass heating plant has been supplying the entire St. Martin site with climate-friendly heat since 2023, replacing approximately 200,000 m³ of natural gas annually.

Biohort also prioritizes environmental compatibility in its manufacturing – with no wastewater or dust emissions, no protective films, and maximum efficiency thanks to lean management.

All internal transport is fully electric, and many company vehicles have already been converted to electric drive. Short transport routes, regional suppliers, and direct delivery without intermediate storage further reduce emissions.

All packaging is 100% recyclable and designed to meet high recycling standards within the EU. The steel used is durable, energy-efficient in production, and infinitely recyclable – without any loss of quality.

“We are fully aware of the responsibility we bear as a manufacturing company – towards the environment, our employees, and our customers around the world.”
– DI Maximilian Priglinger, Managing Director

Mounting Accessories	For Anchored Post	EAN Code	
Hammer Drill Bit	The hammer drill bit is used to drill the required holes in the concrete foundation for the injection mortar. A hammer drill is available in specialist shops.	for SDS plus chuck Ø14 mm Length: 150 mm	9003414 18784 9
Blow-out Pump and Cleaning Brush	The pump is used for a safe and easy cleaning of the drill hole. The cleaning brush is used to remove any dust from the sides of the drill hole. This ensures that the injection mortar adheres to the concrete foundation.		9003414 18785 6
Injection Mortar	The injection mortar is required to bond the threaded rod anchors securely in the concrete.	Content 300 ml Sufficient for minimum of 16 pcs. Anchor rods M12 x 160	9003414 18782 5
Applicator Gun	The injection mortar is precisely applied with the aid of the applicator gun. This is achieved by transmission without great effort.	Suitable for 310ml cartridges	9003414 18783 2
Threaded Rod Anchors	The anchors are glued into the foundation and guarantee a secure connection between foundation and Biohort Privacy Screen including base plate. Per article 4 pcs. – is enough for a post.	M12 x 160 R Includes nuts and washers	9003414 18786 3
