HÖRMANN

STORAGE SYSTEMS

THE ADVANTAGES OF METAL STORAGE SPACES

Hörmann metal storage systems offer many advantages over a wooden house. They are not combustible and do not warp. Thanks to hot-galvanised sheet steel, they are low-maintenance and resistant to both weather and mould. The steel consists of 25% recycled material. Hörmann sheds, firewood racks and garden boxes are 100% reusable. Another benefit is the convenient clear passage height of almost 2 metres, which makes it easier to enter and is higher than comparable tool sheds from other manufacturers.

RESPONSIBILITY FOR GENERATIONS

The Hörmann family business has over 90 years of experience. This gives us an obligation to future generations. That's why environmental responsibility plays such an important role for the business. Hörmann develop innovative solutions for sustainable products with intelligent environmental protection.

20-year warranty*

LONG-LASTING. GUARANTEED

All major storage space system components are developed and manufactured by Hörmann. Endurance tests under real conditions ensure mature series products with Hörmann quality. Thanks to this and uncompromising quality assurance, you receive a 20-year warranty on all Juno garden boxes, Berry tool sheds and Berry firewood racks from Hörmann.

CERTIFIED SAFETY FOR YOU AND YOUR FAMILY

Hörmann storage space systems offer the highest quality and safety. To achieve this, all Berry tool sheds and Berry firewood racks are made of hot galvanised sheet steel. Without any sharp edges and with high-quality doors, locks and hinges. This provides you and your family with safety during daily use.

THINK AND ACT GREEN

Hörmann is a family business who are very conscious of a responsibility to future generations and offer all products for residential construction CO2-neutral as standard. Hörmann cover 100% of their electrical needs at all European production sites with green energy from renewable sources. They save more than 75000 tonnes of CO2 each year. Hörmann work with ClimatePartner to offset the remaining emissions by supporting certified climate protection projects.

HÖRMANN STORAGE SYSTEMS

JUNO AND BERRY TOOL SHEDS

The Juno and Berry tool shed series offers a suitable solution for every need – whether maximum design freedom or quick fitting with well thought-out equipment. Both series stand for quality, durability and modern design, but differ in their construction and equipment options.

ROBUST CONSTRUCTION

The stability of the storage space systems is achieved by a robust steel frame. Strong material thicknesses of up to 1.5mm are used for safety and long-lasting quality. All bolts and hinges are galvanised protecting against oxidation. Sheds come with reliable door locks and high-quality hinges as standard. The standard profile cylinder locking system ensures you can store valuables securely.

HEIGHT ADJUSTABLE HINGES

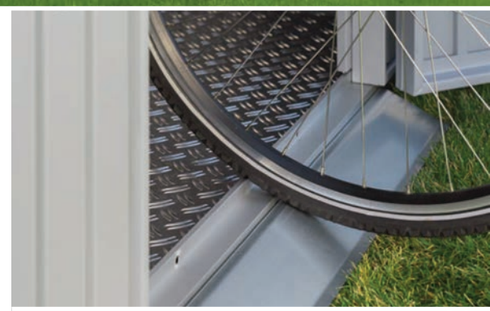

All Berry tool shed and door hinges are height adjustable as standard, making it fast and easy to adjust the door.

CONCEALED HINGES

The concealed door hinges of the Juno tool sheds, which connect the door leaf and door frame, are not visible from the outside and ensure a harmonious appearance.

QUICK AND EASY FITTING

All Berry storage space systems are delivered with a maximum degree of prefabrication. The appropriate tools are also included in the scope of delivery. This makes for quick and easy assembly and fitting.

CLOSE ATTENTION TO DETAIL

All Hörmann storage space systems are developed with attention to details and everyday functionality. Thanks to the high quality and robust construction, you will enjoy your tool shed, firewood rack or your garden box from Hörmann for a long time. Treat yourself to the wide range of storage space systems and matching comfort down to the last detail.

MADE FOR ALL KINDS OF WEATHER

With the door closed and fixed to the foundation, Hörmann tool sheds can withstand wind speeds of up to 150 km/h and a snow load of 150 kg/m^2.

"A GOOD REPUTATION MUST BE EARNED."
- August Hörmann

In keeping with the tradition started by the company's founder, the Hörmann brand is a true promise of quality and, with sales of over 20 million doors, door frames and operators, is one of Europe's most successful suppliers. Due to the comprehensive international sales and service network, Hörmann is your strong partner for high-quality construction components.

BRAND QUALITY MADE IN EUROPE

Hörmann offers all important construction components for building and modernisation, including innovative storage systems, from a single source. Hörmann manufacture in highly specialised factories using state-of-the-art production technologies. Hörmann employees work intensively on new products, continual further developments and improvements to details. The results are patents and one-of-a-kind products that you can depend on.

WORCESTERSHIRE
GARDEN BUILDINGS
...For any Reason...For any Season

Why Choose Worcestershire Garden Buildings?

At Worcestershire Garden Buildings we understand that choosing the right garden building is a significant investment. That’s why we've created one of the Midlands' largest show sites, where you can compare over 70 premium buildings in one convenient location before making your decision.

Whether you’re looking for a contemporary garden room, a fully insulated home office, a luxury summerhouse, a practical shed, a greenhouse or a complete garden annexe, our experienced team will help you find the perfect solution for your home, lifestyle and budget.

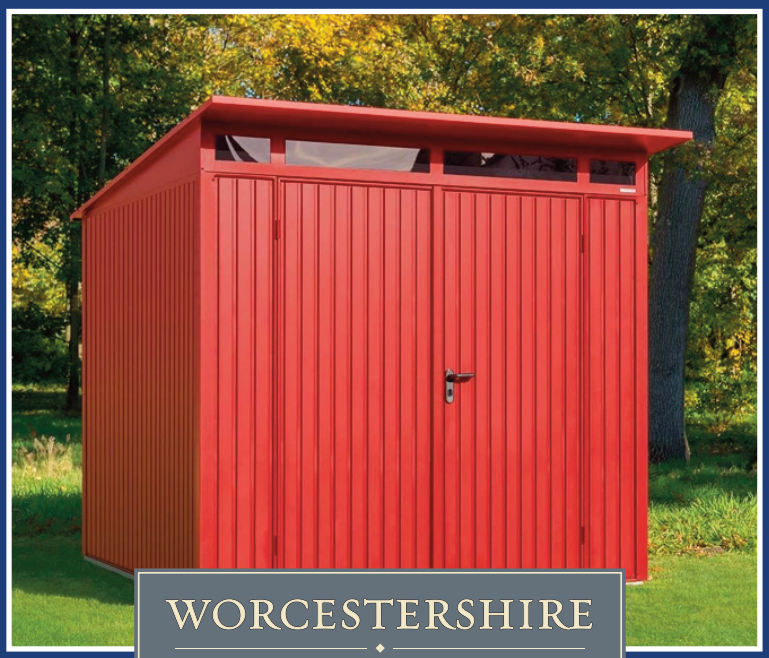

Unlike many suppliers, we offer a complete turnkey service. From initial advice and design through to groundworks, electrical installation, lighting and air conditioning, we manage every stage of your project with care and attention to detail. We work with some of Britain's leading manufacturers to provide high-quality garden buildings that are built to last, giving you confidence that your investment will provide many years of enjoyment.

Visit Our Show Site

Nothing compares to seeing a garden building in person. Our Worcestershire show site features more than 70 display buildings, allowing you to compare styles before you buy.

Our friendly team is always on hand to answer your questions, offer expert advice and help you choose the right solution, whether you're creating an office, hobby room, gym, studio or extra living space.

Discover why customers across Worcestershire and the Midlands choose Worcestershire Garden Buildings for quality, service, choice and value. No appointment is necessary - simply call in and explore one of the largest displays of premium garden buildings in the Midlands.
