INTRODUCTION

Here at Worcestershire Garden Buildings, we are proud to display our BROMLEY GARDEN BUILDINGS range. Our reputation for displaying, supplying and installing quality garden buildings is further enhanced with this superb range of sheds, combination buildings and summer houses.

Various adjectives and superlatives can be applied to the BROMLEY range… "strong", "robust", "fit for purpose"… but perhaps the most appropriate of all, would be "proper" , "properly designed, properly made and properly installed!".

Many features of a Bromley building are standard, which other manufacturers charge as extra. For example, all buildings have solid tongue and groove flooring, and additional diagonal braced framing for added strength.

BROMLEY, with years of manufacturing and installation experience, offer a complete solution to your garden building requirements, whether as a basic shed, attractive summerhouse, or as a clever combination building.

…And, if you have a bespoke design requirement, we can advise and assist on the design and manufacture of the building for you. "BROMLEY BY DESIGN" means unique… not expensive!

The range is simply packaged, so that you start with the basic design, and you can enhance your building with a wide range of optional extras and upgraded as desired.

Remember, the price you pay includes delivery, installation and VAT, all done!

SHEDS, WORKSHOPS & GARAGES

We all love our 'Man Cave'or 'She Shed'. The Bromley range does it all.

Any size, any roof design, apex (pitched) or pent (single, sloping).

The building can be made with or without a floor, and a huge range of optional extras are available to enhance your building (see upgrade and optional extras pages).

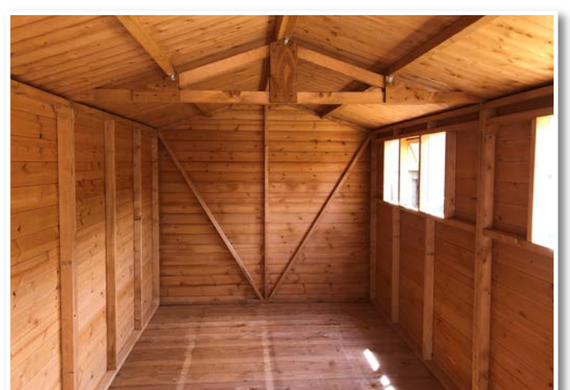

STANDARD FEATURES:

- 13mm treated t&g matchboard cladding
- 3x2 (75x50mm) cls framing
- additional diagonal cross brace framing
- t&g solid floorboards
- fixed glass windows (quantity based on size)
- standard 2ft 6" single door
- heavy duty trusses and roof timbers
- standard felt sheeted roof

SUMMERHOUSES

The BROMLEY summerhouse is a fantastic additional garden room, designed to be used mainly during the summer months of the year and can be designed to fit your available space perfectly.

Choose your roof style, door and window style. Your choice of doors and windows can be put in any position as all buildings are made to order.

MADE TO MEASURE

SENTRY SHED

Handy storage shed

BROMLEY... "BY DESIGN"

You may have a specific design need for your building… Awkward shape? Different roof pitch? Door and windows in unusual positions?

At Bromley, nothing is too much trouble. We will design and cost your idea for you, including delivery and installation. All bespoke buildings still incorporate our usual standard features.

Here is a selection of "Bespoke" projects we have installed.

USEFUL PHOTOS

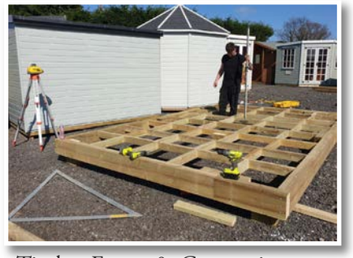

Typically good bases:

Slab

Concrete

Timber Frame & Composite

Not acceptable base:

Insulation and boarding:

MDF finish

Plyline finish

Electrical installation:

Important Information

Please note the following:

Access

We need clear access from where we park to deliver your building to site.

The building comes in panel sections and is erected on site.

Please advise us if you have restricted access.

Importantly, we require 8ft clear height access from ground level.

Please also advise us of tight corners, limited access through doors etc.

Groundworks

It is imperative that your base prepared is both firm and flat. Concrete, slab or timber frame plinth bases are ideal.

If the base is deemed unfit by our installers, they will leave the building and you may incur a revisit charge.

Worcestershire Garden Buildings offer a groundworks installation package should you require it.

Bromley Garden Builders can also install a timber frame plinth base on the fitting day.

Payment

We only require a small deposit at the time of ordering, with the balance payable upon completed installation.

Other Useful Services

Worcestershire Garden Buildings offer the following:

Electrical Service

We can install your electrical requirements in your new building, sockets, lights etc. We will be delighted to quote this service for you.

Insulation and boarding service

You may want to consider installing and boarding your new building.

Post installation, we fit ROCKWOOL thermal insulation and fit wall panelling, either external plyline or MDF board, then finished using beading, architrave and skirting. We will be delighted to quote this service for you.

Groundworks service

Should you require a base for your new BROMLEY building, we are able to help.

Worcestershire Garden Buildings have teams of groundwork contractors who can install a suitable base, either concrete, slabs or timber frame. We will be delighted to quote this service for you.

External Treatments

Your building can benefit from long lasting protection, as well as having an attractive appearance:

Our buildings are paint protected in a range of colours using: PROTEK ROYAL EXTERIOR PAINT.
This is a superior, long lasting finish. For more information visit: www.protekwoodstain.co.uk

If you are not having your building factory painted, you must re-treat your building within 3 months of installation.

*Please note colours may vary due to colour matching print limitations
